Ratings

Poggio Antico wines have received important accolades over time.

Ratings and awards are always quite significant, as they provide regular feedback about the quality of our work.

Because it is very important that this feedback be independent,

we at Poggio Antico have never advertised nor sponsored any magazine or wine guide.

Therefore you can be confident that all ratings, awards or comments given to our wines come from totally independent sources.

The following is a short sample - of which we are aware of - going back to 1990.
